THE PHILADELPHIA SEED CO.

WHOLESALE

BELL, MARKET 28-25 BELL, MARKET 28-28 KEYSTONE MAIN 58-29

108-105 ARCH STREET

PHILADELPHIA, JULY 7, 1927.

ALFALFA: Reasonable prices quoted on seed of certified origin should encourage merchants to avoid the cheaper grades. Southern grown seed of the new crop is now being contracted, but every precaution should be taken by dealers in this territory to avoid its use, notwithstanding the attractive quality and price. We have always refused to handle Alfalfa seed produced in the Southern United States, but have specialized for years in the handling of Northwestern and Kansas grown seed of certified origin.

TIMOTHY: Buying for summer and fall requirements has been rather large. Many are of the opinion that Timothy prices are comparatively low.

RED CLOVER and ALSYKE: Values on surplus stocks carried over are lower than have ruled during the Spring season. Lower prices will likely rule on new crop seed when available.

SOJA BEANS and COW PEAS: Large demand enced, being substituted for Vetch, Crimson Clover and other higher priced Items. Have stocks best quality still available.

CRIMSON CLOVER and HAIRY VETCH; Demand poor, account abnormally high prices. New crop will be available laterat much lower prices.

LAWN GRASS SEED: Trade on this item continues throughout the summer. It is important to have stock ready for instant use of the late buyers.

SEED BUCKWHEAT: Much of the grain available is unfit for seeding. We are taking the necessary precautions to handle seed buckwheat only of satisfactory germination.

BIRD SEED and FEED GRAINS: Note prices on various imported bird seed items, also Kafir, Flint Corn, etc. Can offer straight and mixed carloads for prompt or future slipment.

Prices quoted below are today's values f. o. b. Philadelphia. Samples sent promptly upon request. Bags not returnable.

			por request. dags not returnable.
